

Health Behaviors Research Branch (HBRB)

cancercontrol.cancer.gov/hbrb

About HBRB

Vision

A world in which individuals, families, and communities engage in healthy lifestyle behaviors to prevent cancer, improve treatment outcomes, extend life, and optimize health and well-being.

Mission

To support and catalyze research on the discovery, development, testing, and implementation of effective strategies to promote healthy lifestyle behaviors for cancer prevention and control.

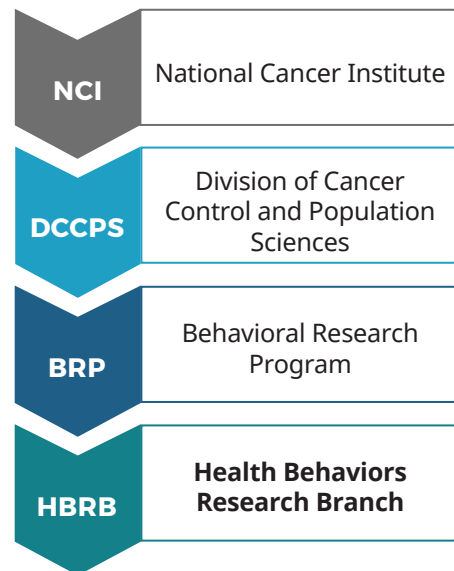

Purpose

The Branch aims to support research at multiple levels of analysis to improve cancer-related health behaviors and risk factors.

Levels of Analysis

Biological/genetic, psychological, behavioral, social, environmental, and policy levels, individually and in combination.

Organizational Structure

Cancer-Related Behavioral Risk Factors of Interest

Behavior genetics

Energy balance

Alcohol use

Diet

Obesity

Sleep and circadian dysfunction

Physical activity and sedentary behavior

Sun safety and tanning

Adherence to cancer-related medical and behavioral regimens

Other emerging cancer risk behaviors

Meet the Grantees

HBRB Team

Susan Czajkowski
Branch Chief
susan.czajkowski@nih.gov

Tanya Agurs-Collins
Program Director
tanya.agurs-collins@nih.gov

David Berrigan
Program Director
david.berrigan@nih.gov

Kara Hall
Program Director
kara.hall@nih.gov

Frank Perna
Program Director
frank.perna@nih.gov

Kimberly Woodhouse
Program Specialist
kimberly.woodhouse@nih.gov

Rebecca Ferrer, Anne Hartman, and Yvonne Prutzman have secondary appointments in the branch.

Funding Opportunities

Stimulating Innovations in Behavioral Intervention Research
for Cancer Prevention and Control

PAR-18-018 (R21 Clinical Trial Optional)

Contact: Tanya Agurs-Collins

Testing Interventions for Health-Enhancing Physical Activity
PAR-18-324 (R01 Clinical Trial Optional), PAR-18-307 (R21/R33 Clinical Trial Optional)

Contact: Frank Perna

Population Health Interventions: Integrating Individual and Group
Level Evidence

PA-18-385 (R01 Clinical Trial Optional), PA-18-407 (R21 Clinical Trials Optional),
PA-18-356 (R01 Clinical Trials Not Allowed), PA-18-406 (R21 Clinical Trials Not Allowed)

Contact: David Berrigan

Cancer Prevention and Control Clinical Trials Grant Program
PAR-18-559 (R01 Clinical Trial Required)

Contact: Susan Czajkowski

Initiatives and Resources

Family Life, Activity, Sun, Health,
and Eating (FLASHE) Study
cancercontrol.cancer.gov/flashe

- This study collected data on psychosocial, generational (parent-adolescent), and environmental correlates of cancer-preventive behaviors.

Transdisciplinary Research on
Energetics and Cancer (TREC)
Centers
cancercontrol.cancer.gov/trec

- The TREC initiative builds scientific evidence that links nutrition, physical activity, weight, and energetics to cancer risk.

Classification of Laws Associated
with School Students (CLASS)
class.cancer.gov

- This project uses two policy classification systems to score state-level codified laws for physical education and nutrition in schools.
