

Evidence-Based Approaches for Survivorship Care: Where are the Research Gaps?

National Cancer Institute's Shady Grove Campus

April 8, 2019

Agenda

Purpose: Following the National Academies' *Long-term Survivorship Care After Cancer Treatment: Proceedings of a Workshop (2018)*, which reviewed progress since the 2006 IOM report *From Cancer Patient to Cancer Survivors: Lost in Transition*, there is a need to identify research gaps in the recommended components of survivorship care and to identify strategic research priorities.
