The Trans-NIH D&I Funding Announcement

(International Investigators Eligible)

- R01 - PAR 13-055 (\$500k per annum up to five years)
R03 - PAR 13-056 (\$50K per annum up to two years)
R21 - PAR 13-054 (\$275K up to two years)
- Participating Institutes: NIMH, NCI, NIDA, NIAAA, NIAID, NHLBI, NINR, NIDDK, NINDS, NIDCD, NIDCR, NCCAM, NHGRI*, NIA* & Office of Behavioral & Social Sciences Research
- Standing review committee, Dissemination and Implementation Health Research
- Three submission dates per year: February, June, October

*New Institute Added to PAR in 2013

Welcome to the Implementation Science Research Webinar Series! In 2013, The National Cancer Institute (NCI) Division of Cancer Control & Population Sciences **Implementation Science Team** started a webinar series focused on advanced dissemination and implementation research topics. Each session will include approximately 30 minutes for presentation(s) by leaders in the field as well as 30 minutes for engaged discussion and Q&A. Review the list of topics and click on the session title below to register for upcoming sessions or view an archived session.

RTIPs Celebrates its 10th Anniversary (2003-2013)!

Use the link below to select a number of criteria, and see a list that contains programs from several topics.

[Select from 133 Intervention Programs](#)

RTIPs is a searchable database of cancer control interventions and program materials and is designed to provide program planners and public health practitioners easy and immediate access to research-tested materials.

[Register your program now](#) and be part of the RTIPs Community.

RTIPs News:

- *RTIPs turns 10!* [Read more.](#)
- *The [N-O-T Program](#) was featured 04/09/2013 on WTOP radio, as part of a George Washington University study. See the "[Exercise helps teens quit smoking](#)" news brief for more information.*
- *Did you know April is National Cancer Control Month? For more information, see the [Presidential Proclamation -- National Cancer Control Month, 2013](#).*
- *RTIPs was featured in the PubMed article - [What Works to Prevent Adolescent Smoking? A Systematic Review of the National Cancer Institute's Research-Tested Intervention Programs](#).*

New Programs on RTIPs:

- Obesity
 - ★ [-Complete Health Improvement Program \(CHIP\)](#) (Post date: April, 2013)
 - [Smart Moves / Bright Bodies](#) (Post date: March, 2013)
- ★ New programs are released periodically. Please check for updates.

RTIPs and Research Reviews

The [Guide to Community Preventive Services](#) evaluates the effectiveness of types of interventions (as opposed to individual programs) by conducting [systematic reviews](#) of all available research in collaboration with partners. The [Task Force](#) on Community Preventive Services then uses the systematic review findings as the basis for their recommendations for practice, policy and future research. The symbol to the right links to Community Guide findings. Many Research-tested Intervention Programs (RTIPs) are directly linked to associated Community Guide findings.

Tools Available:

- [Using What Works](#): a train-the-trainer course that teaches users how to adapt a research-tested intervention program to the local community context

We welcome your feedback on the Research-tested Intervention Programs Web site. To submit feedback, please [contact us](#). Thank you for helping to improve this site for the cancer control community.

Research Tested Intervention Programs (RTIPs)

- Intervention outcome finding(s) must be **published in a peer-reviewed journal**.
- The study must have produced **one or more positive behavioral and/or psychosocial outcomes** ($p \leq .05$) among individuals, communities, or populations.
- Evidence of these outcomes has been demonstrated in at least one study using an **experimental or quasi-experimental design**.
 - The intervention **must have messages, materials, and/or other components** that include English and can be disseminated in a U.S. community or clinical setting.
- The intervention has been **conducted within the past 10 years**.

WE WANT YOU!

How You Can Get Involved:

1. Submit your intervention for RTIPs consideration:
<http://rtips.cancer.gov/rtips/register/index.do>
2. Contact the RTIPs team for questions, comments, additional information:
<http://rtips.cancer.gov/rtips/contact.do>

Research to Reality (R2R): A Virtual Community of Practice

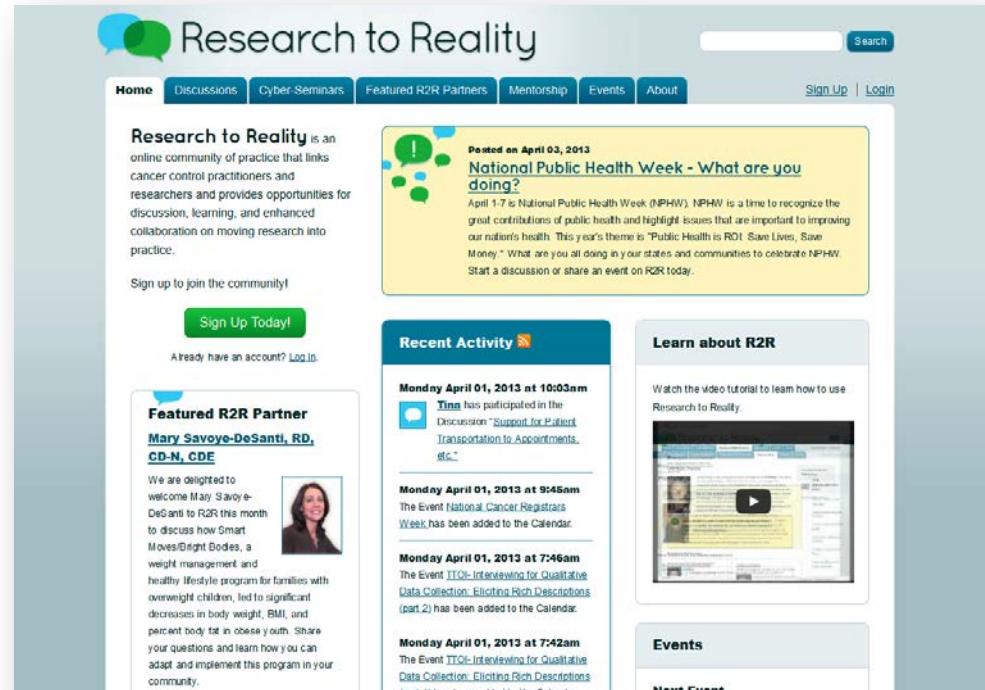

A dialogue between practitioners and researchers on how to
move evidence-based programs into practice

- Launched February, 2011 (NCI)

- Linked to Cancer Control
P.L.A.N.E.T.

- Site Features:

- Monthly cyber-seminars
- Discussion forums
- An events calendar
- Featured partners
- Community profiles
- Mentorship Program
