

Center for  
Scientific Review

# The NIH Peer Review Process

Julia Krushkal Adkins, Ph.D.

Scientific Review Officer

Cardiovascular and Sleep Epidemiology (CASE) Study Section  
Population Sciences and Epidemiology Integrated Review Group  
Division of AIDS, Behavioral, and Population Sciences

# Outline

- NIH peer review system
- Review process for a research grant application
- Information about CSR and study section assignment
- Review process: Before the study section meeting
- Review process: At the study section meeting
- Post-meeting information
- Becoming a reviewer
- NIH peer review resources
- Answers to questions

# NIH Peer Review System for Grant Applications

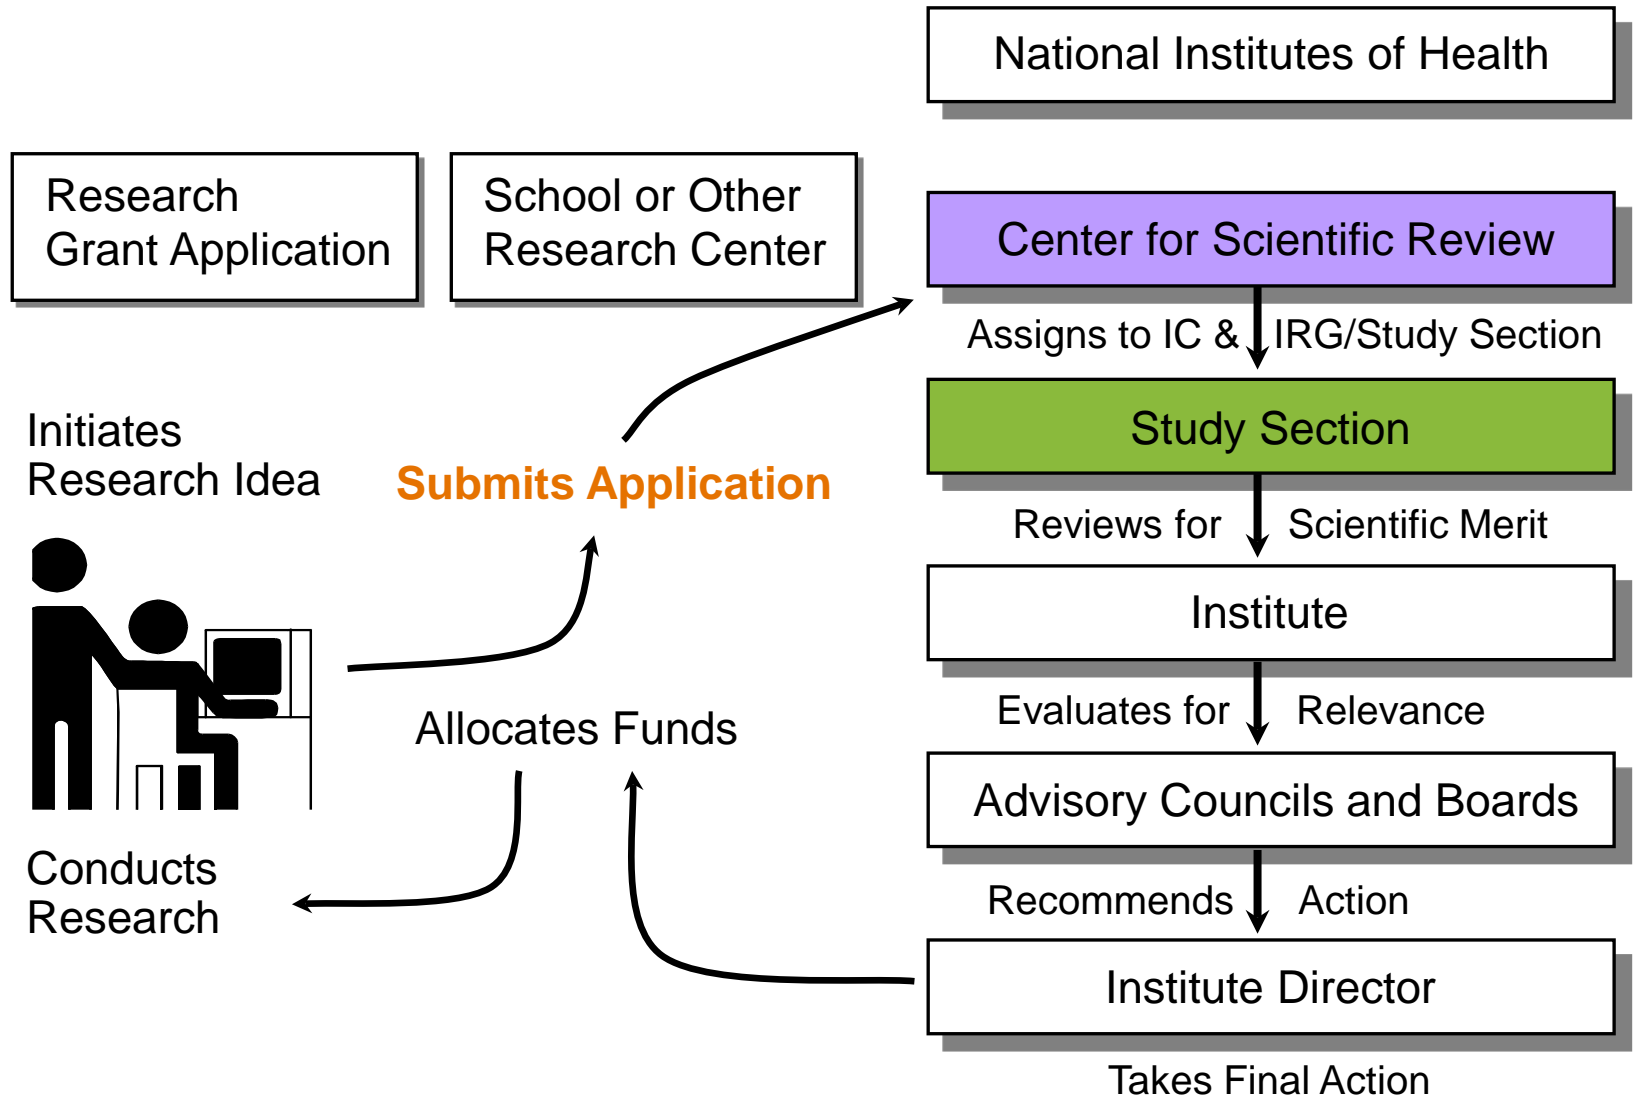

First Level of Review  
Scientific Review Group  
(Study Section)

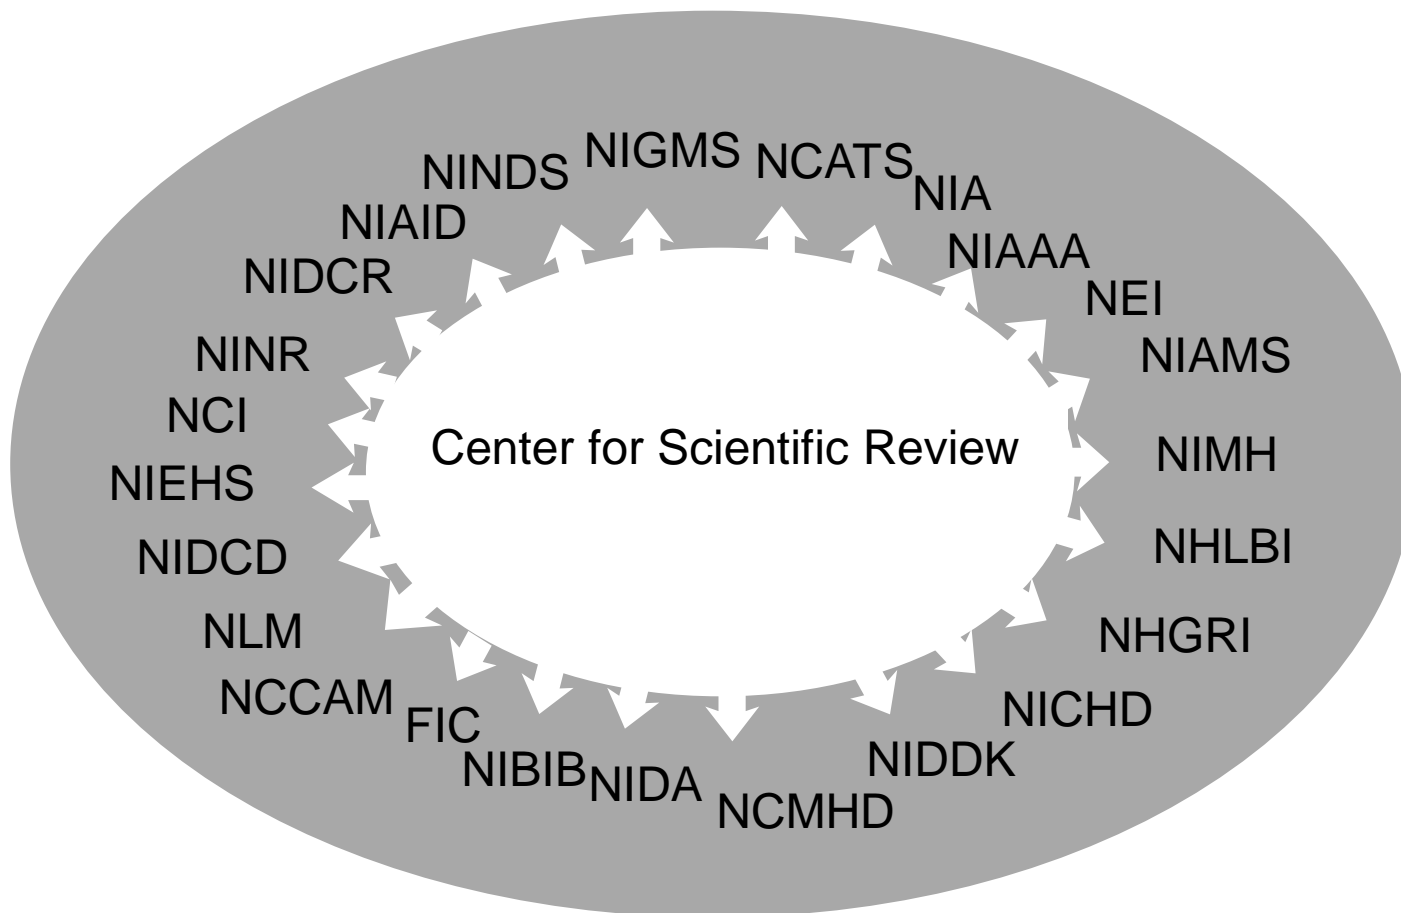

Second Level of Review  
NIH Institute/Center Council

# Review Process for a Research Grant

# 24 NIH Institutes and Centers Fund Grants

# Center for Scientific Review

## Referral

- Central receipt point for most PHS Grant Applications
- Institute/Center assignment (potential funding component)
- Assignment to Scientific Review Group in CSR or in an Institute

## Scientific Review

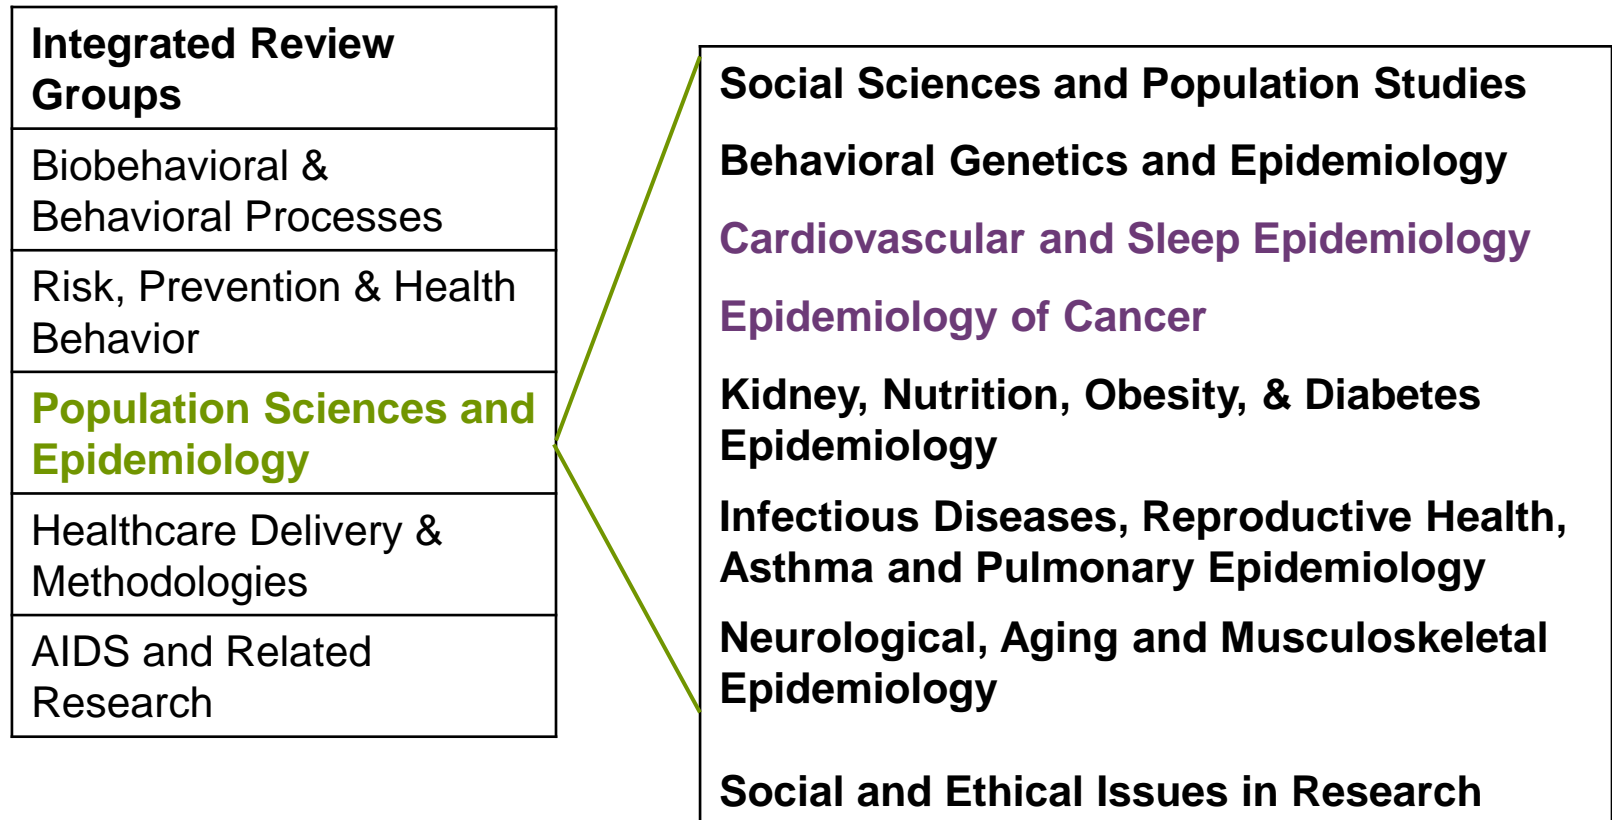

- Approximately 240 CSR chartered study sections and regularly recurring Special Emphasis Panels that primarily review:
  - Research Grant Applications
  - Fellowship Applications
  - Academic Research Enhancement Award Applications
  - Small Business Innovation Research Applications

# Applications Are Assigned to:

- **Institutes or Centers based on—**
  - Overall mission and guidelines of the Institute or Center
  - Specific programmatic mandates and interests of the Institute or Center
- **Integrated Review Groups based on—**
  - Specific review guidelines for each Integrated Review Group (IRG)

# CSR Divisions Include Integrated Review Groups

## Division of AIDS, Behavioral and Population Sciences

# CASE-EPIC Twin Study Section Pilot

- Duration of the pilot: 2-3 review rounds
- Applications submitted for the February/March 2014 receipt dates (to be reviewed in June 2014) and thereafter will be assigned to one of the two new study sections.

# Assignment to CSR Study Sections

**Within an IRG, applications are assigned to:**

## **Standing Study Sections**

- When subject matter of application matches the referral guidelines for the study section or

## **Special Emphasis Panels (SEPs)**

- When the subject matter does not fit into any study section
- When assignment of an application to the most appropriate study section creates a conflict of interest
- When certain types of grants are sought (e.g., fellowships, SBIRs, AREAS)

# Help Get Your Application to the Right Study Section

- Review CSR Integrated Review Group and Scientific Review Group (Study Section) guidelines to identify a home for your application.
- Submit a Cover Letter!

<http://www.csr.nih.gov/>

# Help Your Application Get to the Right Study Section

The screenshot shows the NIH Center for Scientific Review website. The top navigation bar includes links for NIH Program Resources, Staff Directory, Contact, and Press Kit. A search bar is present with the text "Search Words: Search this site...". Below the navigation bar, there are tabs for "About CSR", "Applicant Resources", "Reviewer Resources", "Study Sections", "Rosters and Meetings", and "Employment". The "Study Sections" tab is selected, and the "Integrated Review Groups" sub-tab is also selected. The main content area displays the "AIDS Clinical Studies and Epidemiology Study Section [ACE]" page. It includes a description of the section's role in reviewing applications for HIV/AIDS and associated diseases. There are links for "Share" and "Print". A "Policy Changes" sidebar on the right lists updates such as "NIH Extends Application Due Dates of Nov 21-23 to Nov 28" and "Deadline for Applications Due on November 21 and 22, 2011". A "FAQ's" sidebar on the right lists links for "For Applicants", "For Reviewers", and "More ...". The "Topics" section lists various research areas related to HIV/AIDS, including natural history, transmission, clinical studies, and metabolic consequences. The "Closely Related" section lists other study sections like "Clinical Research and Field Studies of Infectious Diseases (CRFS)" and "Infectious Diseases, Reproductive Health, Asthma and Pulmonary Conditions [IRAP]".

Integrated Review Groups Standing Small Business and Technology Transfer Fellowship Special Emphasis

Integrated Review Groups > AIDS and Related Research IRG [AARR] > AIDS Clinical Studies and Epidemiology Study Section [ACE]

**AIDS Clinical Studies and Epidemiology Study Section [ACE]** Share Print

The AIDS Clinical Studies and Epidemiology [ACE] Study Section reviews applications dealing with clinical and epidemiological aspects of HIV/AIDS and associated diseases in United States and international settings.

**Rosters**

ACE Membership Roster ACE Meeting Rosters

**Topics**

- » Natural history and cohort studies, incidence and prevalence of AIDS and clinical ramifications of opportunistic infections and infectious diseases such as TB, malaria, IRIS and hepatitis
- » Transmission, prevention measures, and long-term management of symptoms and disease of HIV infection in defined cohorts
- » Clinical studies that address diagnosis and treatment of HIV/AIDS and associated complications and disease progression in children and adults.
- » Metabolic, pulmonary and cardiovascular consequences of HAART in aging HIV/AIDS populations.
- » Mother to child transmission/prevention in resource poor countries.
- » Clinical studies to evaluate the effectiveness of new diagnostics
- » Development of biostatistical tools for AIDS clinical trials including mathematical modeling of viral infection, transmission, and disease progression.

**Closely Related**

Clinical Research and Field Studies of Infectious Diseases (CRFS)  
Infectious Diseases, Reproductive Health, Asthma and Pulmonary Conditions [IRAP]  
Behavioral and Social Science Strategies to Preventing HIV/AIDS (BSPH)  
AIDS-associated Opportunistic Infections and Cancer (AOIC)  
AIDS Discovery and Development of Therapeutics (ADDT)  
NeuroAIDS and other End-organ Diseases (NAED)  
Biostatistical Methods and Research Design [BMRD]  
Kidney, Nutrition, Obesity and Diabetes Study Section [KNOD]

**Policy Changes**

- » NIH Extends Application Due Dates of Nov 21-23 to Nov 28
- » Deadline for Applications Due on November 21 and 22, 2011
- » New Dates for New Investigator A1 R01 Applications Submitted for Standard Dates
- » Delays in Grant Application Submission due to Natural Disasters - September 2011
- » More ...

**FAQ's**

- » For Applicants
- » For Reviewers
- » More ...

## Study Section

<http://public.csr.nih.gov/StudySections/Pages/default.aspx>

# Cover Letter

The cover letter should be used for a number of important purposes:

- Suggest Institute/Center assignment
- Suggest review assignment
- Identify individuals in potential conflict and explain why
- Identify areas of expertise needed to evaluate the application
- Discuss any special situations

It is NOT appropriate to use the cover letter to suggest specific reviewers.

<http://public.csr.nih.gov/ApplicantResources/PlanningWritingSubmitting/Pages/Cover-Letters-Help-Us-Refer-and-Review-Your-Application-.aspx>

# Sample Cover Letter

Please assign this Phase I SBIR “Drugs for Retinoblastoma Treatment” (RFA-CS-00-000) to the following:

Institutes/Centers

National Cancer Institute

National Eye Institute

Scientific Review Group

Oncology Translational and Clinical IRG

Please do not assign this application to the following:

Scientific Review Group

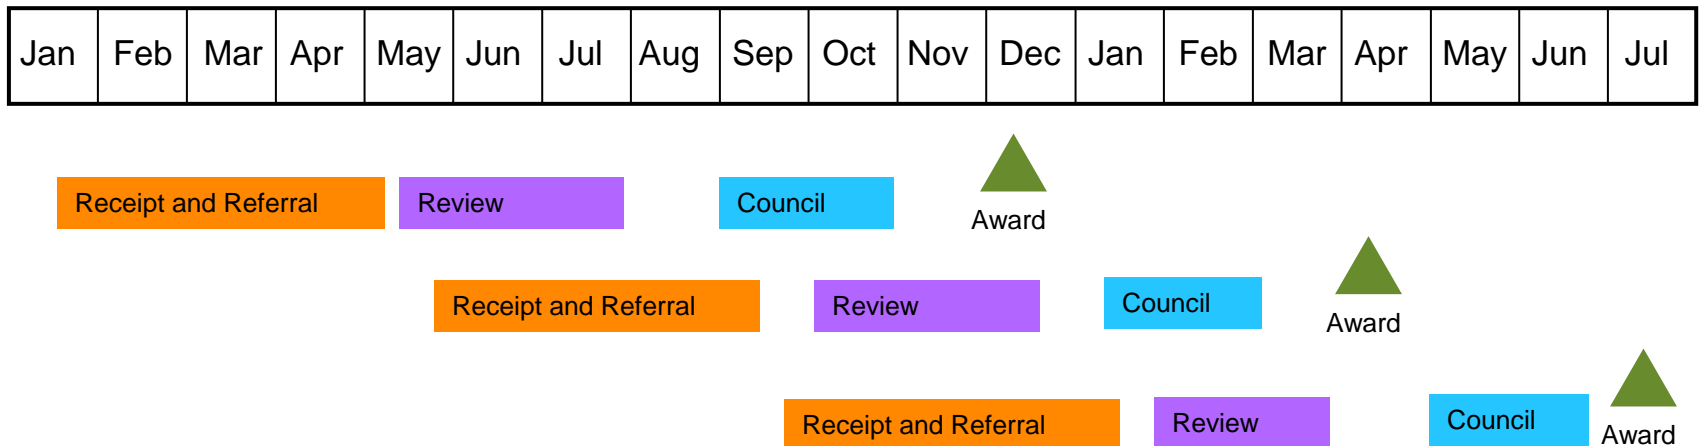

Biological Chemistry and Macromolecular

Biophysics

This study focuses on a new in vitro model for testing drugs for treatment of retinoblastoma, not the synthesis of new chemotherapeutic agents.

# Overall Timeframe from Submission to Award

There are three main overlapping cycles per year

<http://grants1.nih.gov/grants/funding/submissionschedule.htm>

# CSR Study Sections

- Each CSR standing Study Section has ~12-25 regular members plus temporary reviewers from the scientific community
- About 60-100 applications are usually reviewed by each study section in 1-2 day meetings

# How Reviewers Are Selected for Study Section Service

- Demonstrated scientific expertise/research support
- Doctoral degree or equivalent
- Mature judgment
- Work effectively in a group context
- Breadth of perspective
- Impartiality
- Representation of women and minority scientists
- Geographic distribution

# Confidentiality

- Review materials and proceedings of review meetings represent privileged information for reviewers and NIH staff.
- At the end of each meeting, reviewers must destroy or return all review-related material.
- Reviewers should not discuss review proceedings with anyone except the SRO.
- Questions concerning review proceedings should be referred to the SRO.
- Applicants should never communicate directly with any members of the study section about an application.

# Reviewer Conflicts of Interest (COI)

## What Constitutes a Reviewer COI?

- Institutional
- Family member/close friend
- Collaborator
- Longstanding scientific disagreement
- Personal bias
- Appearance of conflict

[http://grants.nih.gov/grants/peer/peer\\_coi.htm](http://grants.nih.gov/grants/peer/peer_coi.htm)

# Before the Study Section Meeting

- Each application is assigned to 3 or more reviewers 5-6 weeks in advance
- Reviewer assess each application by providing:
  - A preliminary Overall Impact score
  - Criterion Scores for each of the 5 Core Review Criteria
  - A written critique

# What Reviewers Look for in Applications

- Significance and impact
- Exciting ideas
- Clarity
- Ideas they can understand -- Don't assume too much
- Realistic aims and timelines -- Don't be overly ambitious
- Brevity with things that everybody knows
- Noted limitations of the study
- A clean, well-written application

# 9-Point Scoring Scale

Impact	Score	Descriptor
High Impact	1	Exceptional
	2	Outstanding
	3	Excellent
Medium Impact	4	Very Good
	5	Good
	6	Satisfactory
Low Impact	7	Fair
	8	Marginal
	9	Poor

# Scoring

## **9-point score scale is used to provide:**

- Criterion Scores for each of the 5 core review criteria
- Overall Impact/Priority Score based on but not a sum of the core criterion scores plus additional criteria

## **All applications receive scores:**

- Not discussed applications will receive only initial criterion scores from the three assigned reviewers.
- Discussed applications also receive an averaged overall impact score from eligible (i.e., without conflicts of interest) panel members.

# Review Criteria

- Overall Impact
  - Assessment of the likelihood for the project to *exert a sustained, powerful influence on the research field(s) involved*
- Core Review Criteria
  - Significance
  - Investigator(s)
  - Innovation
  - Approach
  - Environment

**Review criteria each scored from 1-9**

# Additional Criteria Contribute to Overall Impact Scores

- Protections for human subjects
- Inclusions of women, minorities, and children
- Appropriate use of vertebrate animals
- Management of biohazards

# At the Meeting

## Order of Review

- The average of the preliminary Overall Impact score from the assigned reviewers determines the review order
- Discussions start with the application with the best average preliminary Overall Impact score

## Clustering of Review

- New Investigator R01 applications are clustered
- Clinical applications & other mechanisms may be clustered ( $n \geq 20$ )

## Not Discussed Applications

- About half the applications will be discussed
- Applications unanimously judged by the review committee to be in the lower half are not discussed

# At the Meeting: Application Discussion

- Any member in conflict with an application leaves the room
- Reviewer 1 introduces the application and presents critique
- Reviewers 2 and 3 highlight new issues and areas that significantly impact scores
- All eligible members are invited to join the discussion and then vote on the final overall impact score

# Priority Scores/Percentile Rank

- For each study section, applications in the upper half may be scored from 1-9, with 1 the best score.
- Individual scores are averaged and multiplied by 10 to give the final priority score

# Not Discussed Applications

- Reviewers discuss half of the applications in each cluster, beginning with the best
- The panel will discuss any application any reviewer wants to discuss
- Not discussed applications will only be assigned criterion scores

# Summary Statement

**Feedback to the applicant and the assigned NIH Institute(s) or Center(s) that may fund it.**

- Essentially unedited critiques
- Scores for each review criterion
- Administrative notes if any

## **Additional information for discussed applications**

- Summary of review discussion
- An overall impact/priority score and percentile ranking
- Budget recommendations

# A Window to Your Application: eRA Commons

**eRA Commons is an online interface where a grant applicant can:**

- Check submitted grant application for errors and warnings and view final image
- Track review assignment, view review outcomes (score, summary statements), find contact info
- Update Personal Profile to ensure Early Stage Investigator eligibility is in place
- Submit pre-award information (just in time)
- View Notice of Award and other key documents

**And much more!**

<https://commons.era.nih.gov/commons/>

# Who Can Answer Your Questions?

## Before You Submit Your Application

- A Program Officer at an NIH Institute or Center
- Scientific Review Officer

## After You Submit

- Your Scientific Review Officer

## After Your Review

- Your Assigned Program Officer

**GrantsInfo: [GrantsInfo@nih.gov](mailto:GrantsInfo@nih.gov) – 301 435-0714**

# Requirements for Being an Early Career Reviewer

- Has not reviewed for CSR beyond one mail review
- Demonstrates training, experience or qualifications in the discipline and fields of the scientific areas under review as evidenced by:
  - A faculty appointment or equivalent
  - An active independent research program and recent publications in peer reviewed research journals
  - Other relevant credentials or experience
- Does not necessarily have NIH or equivalent funding

# Apply to the ECR Program

- Information available at [www.csr.nih.gov/ECR](http://www.csr.nih.gov/ECR)
- Send a current CV and a list of terms that describe your scientific expertise to [CSREarlyCareerReviewer@mail.nih.gov](mailto:CSREarlyCareerReviewer@mail.nih.gov)
- Nominations of qualified researchers are welcomed
- Self-nominations are welcomed
- We will determine your eligibility
- If eligible, your name will be placed into our ECR database
- You will be invited to serve as an ECR when your expertise is needed for particular applications
