I'll be asking you questions about your health and health practices.

Mammography History

First, I'd like to ask you about mammograms. A mammogram is a special x-ray picture taken of the breast to find cancer in its earliest stages. When you get a mammogram, your breasts are placed between plastic plates and flattened slightly to get a clear picture.

- 1.1 Have you ever had a mammogram?

1=Yes 2=No 7=Refused 8=Don't Know

If 1.1= Yes → 1.2a
No, Refused, Don't Know → 1.4a

- 1.2a In what month and year was your most recent mammogram?

Family History

The next questions are about whether or not any of your close blood relatives have been diagnosed with breast cancer. This includes your mother and full or half-sisters only. Do not include step-sisters or adopted family members.

6.1a Was your mother ever told by a doctor that she had breast cancer?

1=Yes 2=No 7=Refused 8=Don't Know

*If 6.1a= Yes → 6.1b
No, Refused, Don't Know → 6.2a*

6.1b How old was your mother when she was first diagnosed with breast cancer? Was she:

1. < 50 years of age
2. ≥ 50 years of age

7=Refused 8=Don't Know

6.2a How many full or half sisters do you have? Please include those who are no longer living.

_____ (enter 0 for none)

97=Refused 98=Don't Know

*If 6.2a= 0 → 7.1
Else → 6.2b*

6.2b (Was/Were any of) your sister(s) ever told by a doctor that (she/they) had breast cancer?

1=Yes 2=No 7=Refused 8=Don't Know

*If 6.2b= Yes → 6.2c if 6.2a > 1
If 6.2b= Yes → 6.2d if 6.2a=1
No, Refused, Don't Know → 7.1*

6.2c How many of your sisters were ever told by a doctor that they had breast cancer?

97=Refused 98=Don't Know

6.2d How old was your sister when she was first diagnosed with breast cancer?

1. < 50 years of age
2. ≥ 50 years of age

7=Refused 8=Don't Know

If she has 2 sisters:

6.2e How old was your other sister when she was first diagnosed with breast cancer?

1. < 50 years of age
2. ≥ 50 years of age

7=Refused 8=Don't Know

If she has 3 sisters:

6.2f How old was your other sister when she was first diagnosed with breast cancer?

1. < 50 years of age
2. ≥ 50 years of age

7=Refused 8=Don't Know

If she has any other sisters, please continue asking the above questions.

Medical History

The next questions ask about your medical history.

7.1 How old were you when you had your first menstrual period?
(Do not read choices)

1. Never had a menstrual period
2. Age 11 or younger
3. Ages 12 or 13
4. Age 14 or older

7=Refused

8=Don't Know

If 7.1= 1 → 7.4a

Else → 7.2a

7.2a Have you stopped getting your menstrual period?
(Other than for pregnancy)

1=Yes

2=No

3=HRT

7=Refused

8=Don't Know

If 7.2a= Yes → 7.2c

No, N/A, Refused, Don't Know → 7.3

HRT → 7.2b

7.2b At what age did you start using hormone replacement therapy (HRT)?

_____ ***(Please give a specific age and not a range)***

97=Refused

98=Don't Know

Go to 7.3

7.2c How old were you when you stopped getting your menstrual periods?

(Do not read choices)

1. < 30 years of age
2. 30-34 years of age
3. 35-39 years of age
4. 40-44 years of age

Misperceptions/Risks

Now I would like to ask you a few questions about breast cancer risk and the benefits of mammography.

8.1 Thinking of women your age, how effective do you think mammograms are for reducing deaths from breast cancer? Would you say:

1. Very ineffective
2. Somewhat ineffective
3. Somewhat effective
4. Very effective

7=Refused

8=Don't Know

8.2 For which age group do you think mammography is more effective in reducing deaths from breast cancer? Would you say it is more effective for:

1. Women aged 40-49
2. Women aged 50-65
3. Age makes no difference

7=Refused

8=Don't Know

8.3 Who do you think is more likely to get breast cancer? Is it:

1. Women aged 40-49
2. Women aged 50-65
3. Women over age 65
4. Age makes no difference

7=Refused

8=Don't Know

8.4 By what percent do mammograms reduce breast cancer deaths for women in their 40's?

I will now be asking you for your opinions about your chances of getting breast cancer in the next 10 years and in your lifetime.

8.6 How likely are you to get breast cancer in the next 10 years?

Would you say:

1. Very unlikely
2. Unlikely
3. 50-50 chance
4. Likely
5. Very likely

7=Refused

8=Don't Know

8.7 On a scale from 0 to 100 where 0 = certain not to happen, and 100 = certain to happen, how likely are you to get breast cancer in the next 10 years?

_____ (Specify a number and not a range)

997=Refused

998=Don't Know

8.8a How likely are you to get breast cancer in your lifetime?

Would you say:

1. Very unlikely
2. Unlikely
3. 50-50 chance
4. Likely
5. Very likely

7=Refused

8=Don't Know

If 8.8a= 1,2,3,4,5 → 8.8b

Refused, Don't Know → 8.9

- 8.8b In the previous question, you mentioned that your risk of getting breast cancer in your lifetime was ***insert response from 8.8a***. What things did you think about that led you to choose that answer?

(Do not read choices. Probe as needed. You may circle up to 4 in order mentioned.)

1. Age (younger)
2. Age (older)
3. Has family history of breast cancer
4. No family history of breast cancer
5. Exercises regularly
6. Exercises little or none
7. Diet (good)
8. Diet (bad)
9. Faith in God
10. Has/Had breast injury
11. No breast injury
12. Has/Had symptoms (pain, lumps, etc..)
13. No symptoms (pain, lumps, etc..)
14. Get regular mammograms
15. Doesn't get regular mammograms
16. Get regular clinical breast exams (CBE)
17. Doesn't get regular clinical breast exams (CBE)
18. Based on what doctor told me
19. Did breastfeed
20. Didn't breastfeed

96=Other? *(Please specify)*

97=Refused

98=Don't Know

- 8.9 On a scale from 0 to 100 where 0 = certain not to happen, and 100 = certain to happen, how likely are you to get breast cancer in your lifetime?

_____ *(Specify a number and not a range)*

997=Refused

998=Don't Know

For the next two questions, I want you to think about your chances of getting breast cancer compared to other women your age within the next 10 years and in your lifetime.

8.10 Compared to other women your age, how likely are you to get breast cancer in the next 10 years? Would you say:

1. Much below average
2. Below average
3. Same average risk as other women your age
4. Above average
5. Much above average

7=Refused

8=Don't Know

8.11 Compared to other women your age, how likely are you to get breast cancer in your lifetime? Would you say:

Decision Making

Some people want to learn everything possible before they make a decision about getting a mammogram. Others prefer to learn only what is needed to make a decision – just the basics. We would like to know what amount of information you prefer.

Read the below definitions only if the participant asks.

1 = Just the basics: only the information that is needed to make an informed decision

2 = A moderate amount: the basics plus some more information that may be of use to you in making a decision

10.1 How much information would you want about what the studies about mammography have found, e.g. the risks, benefits and other information about the studies?

Would you want:

1. Just the basics
2. A moderate amount
3. No information ***(Do not read this choice)***

The next question is about making decisions about medical tests.

10.4 The following statements describe different ways a person might make a decision about whether or not to have a medical test. Which of these best describes **your** way of making a decision? *Please read each statement before selecting one response:*

1. You prefer to leave all decisions regarding medical tests to your doctor
2. You prefer that your doctor make the final decision about which medical tests will be used, but seriously considers your opinion
3. You prefer that you and your doctor share responsibility for deciding which tests are best for you
4. You prefer to make your own decisions about medical tests after seriously considering your doctor's opinion
5. You prefer to make your own decisions about medical tests regardless of your doctor's opinion
